

Ejerforeningen Tuborg Havnepark B

v. formanden Finn Wæver, Tuborg Havnepark 6, 2. th., 2900 Hellerup

TO THE RESIDENTS

The committee has learned that several of the residents apparently don't know the basic rules to handle

BIG RUBBISH and **GARDEN REFUSE**

because such things in the 3 recent weeks, against the rules, has been placed next to the ramp to the parking basement between number 5 and 7.

It is by this impressed, that

BIG RUBBISH will be collected **Mondays in odd weeks**, and handling is as described in the enclosed pamphlet. There may only be used transparent garbage bags.

GARDEN REFUSE will be collected **Mondays in even weeks**, and has to be delivered in a disposable paper bag meant for garden refuse (max. 100 liters) or in bundled branch stumps (length max. 1 meter and diameter max. 35 cm)

There may **only** be used **paper bag meant for garden refuse**.

Black, gray or colored plastic bags **may not be used for any waste**.

Regardless it is **BIG RUBBISH** or **GARDEN REFUSE** you may earliest place it next to the ramp to the parking basement **Sunday at 6:00 pm** and latest at 7:00 am on Monday **before collection** in respectively odd or even weeks.

The committee will bring about, that waste, there will be placed against the rules, **will be removed by the residents account**.

It is recommended, that residents, who at the moment have waste placed against the rules, will remove it by themselves.

Have a pleasant summer

The committee, 1th may 2009
